

Practice Lab:

DSE Search, Create
Synonym, Case
Insensitive

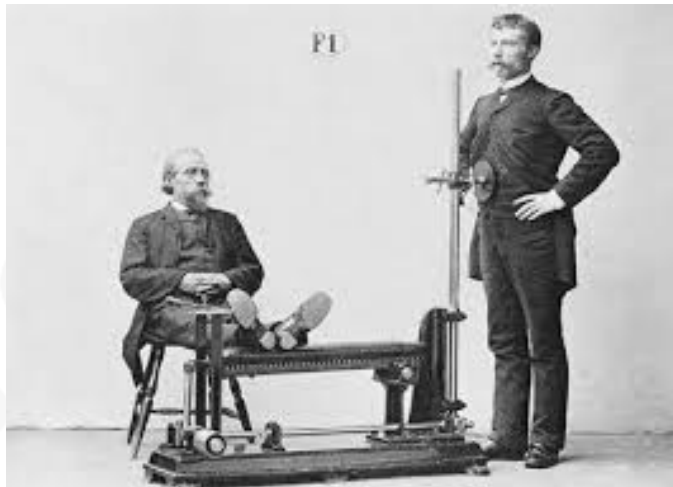

- This Practice Lab is dependent on Discussion Module 7443, where most of the objects we create in this lab were introduced.
- This Practice Lab requires a working DSE system, with DSE Search enabled, and with ability to execute CQL DDL.
- Because of the dependency on the dsetool utility, this Practice Lab requires a ssh(C) prompt on at least one node operating DSE Search. All other commands are run from CQLSH, or DSE Studio.

Challenge 1: Execute all of the following below

- Discussion Module 7443 details each of the commands entered on the notes page below.
- The dsetool command must be run directly on one of the DSE nodes running DSE Search, in an ssh(C) command window. All other commands may be run in CQLSH, or DSE Studio.
- Execute all of the instructions on the notes page below-

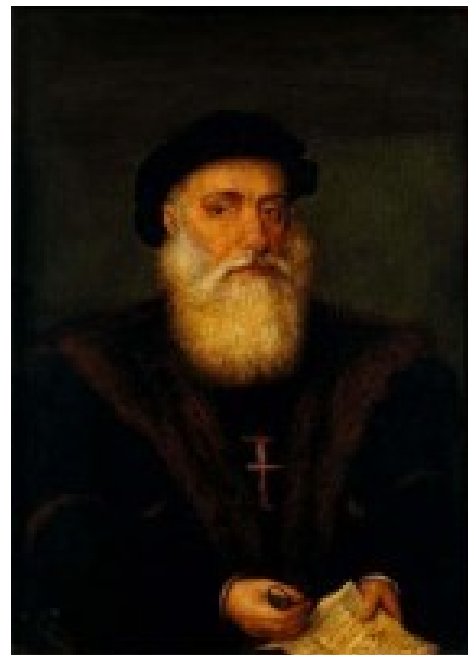

Challenge 1: Test via CQL SELECT / DSE Studio

- Test your results using the three CQL SELECT statements entered on the notes page below.
- The first two queries return data, the last query does not.

Go Farther: (Optional)

Vasco da Gama (1460-1524) First European to reach India by sea.

Challenge 2 (Optional): Syntax to harvest from-

ALTER SEARCH INDEX SCHEMA ON t2

```
ADD fieldType[@name='TextField44',class='solr.TextField']
```

```
WITH '{"analyzer":{"tokenizer":  
{"class":"solr.StandardTokenizerFactory"},  
"filter":{"class":"solr.LowerCaseFilterFactory"}}}';
```

ALTER SEARCH INDEX SCHEMA ON t2

```
ADD fieldType[@name='TextField41',class='solr.TextField']
```

```
WITH '{"analyzer":{"tokenizer":  
{"class":"solr.StandardTokenizerFactory"},  
"filter":[{"class":"solr.LowerCaseFilterFactory"},  
{"class":"solr.EnglishMinimalStemFilterFactory"}]}}';
```

Case insensitive example

Stemming example, two filter example

Challenge 2 (Optional): Goals

Leif Ericson (970-1020) Considered the first European to reach North America.

Source: <http://totallyhistory.com/biography/famous-explorers/>

- Leave col1, col2, and col3 alone. Alter col4, col5, .. as needed.
- Create col4, just case insensitive.
- Create col5, case insensitive, and stemming.
- Create col6, case insensitive, synonym.
- Experiment with forms of,

```
SELECT * FROM t1 WHERE col3 LIKE 'D%' ;
```
